Trio Racer F1
Racing Wheel for PC, PS3 and Wii Games

Genius
Live with Ideas

Trio Racer F1 is the latest racing wheel from Genius. The multi-platform design enables it to be compatible with PC, PS3, Wii and GameCube racing games. It has 11 built-in programming buttons that offer commonly used features in racing games such as horn, emergency brake, lights, maps, and more. Specially designed two hand levers on the back of the wheel make it possible to shift gears quickly. And the ergonomic foot pedal includes an accelerator and brake.

The C-clamp can fit on any table or desk. Trio Racer F1 is plug-and-play, so you play games immediately without any driver installation.
For more information, contact your local sales representative.
